Budget Delegate	Kaylin Campbell Mark Schlicher	Idea #:	1247, 151, 1203
		ID:	27
		SVI:	2 (\$2,800,000)
		Budget:	\$773,000
Location	5150 Edmondson Pike, 37211		

Short Description:

Updates to Whitfield Park: Install shade structure, extend the greenway to connect to Oakley Drive/McMurray Drive at Edmondson Pike, install inclusive playground equipment, replace signage, and install picnic tables and a water station.

Long Description:

Notes for metro, including cost evaluation received for each item:

- UV Shade for playground/ballpark **\$300,000** | For a small shade structure that would cover a large part of the playground.
- Extend Seven Mile Creek Greenway to Oakley Drive, by paving from the south end of the Ag Center property to Oakley Dr. through Metro property, and adding an ADA ramp to terminate and connect to the existing sidewalk on the north side of Oakley Drive, (on the West side of Edmondson Pike). **\$300,000**
- Inclusive equipment for handicapped **\$135,000** | Would require more room. Because this is a floodplain we might need to look at some untraditional equipment here.
- Replace the Seven Mile Creek Greenway trailhead sign **\$15,000**
- Fix Whitfield Park wooden sign **\$5,000**
- Refillable water station **\$12,000** | this will require a new fountain and pad to bring up to a frost free with bottle filler, two levels of bowls, and a dog bowl.
- Additional picnic tables **\$6,000** | Placed in grass area close to playground and ball fields.

This project page has been curated by a budget delegate, drawing inspiration from ideas submitted by Nashville residents until June 20, 2023. It has been shaped with initial input regarding scope and budget from a Metro department. While Metro is committed to adhering to the specified scope, adjustments or even the potential elimination of certain aspects may become necessary during implementation, influenced by site-specific or unforeseen conditions. Furthermore, the projects' funding source is from the American Rescue Plan Act (ARPA), which current guidelines require all ARPA-funded projects be completed by December 2026. Should any project be delayed or expected to be delayed beyond this deadline, it shall be subject to elimination. The implementation timeline will be rigorously monitored to ensure compliance with this crucial requirement. Any prospective alterations to the project will be subjected to rigorous scrutiny and resolution by the steering committee during their regularly scheduled meetings.
